I'm a software developer with experience in JavaScript, React, and related libraries. My passion lies in creating engaging, responsive user interfaces that enhance the overall user experience. I have an avid interest in full-stack development and React Native, and I'm constantly seeking opportunities to expand my skillset and knowledge.

Experience

Frontend Development Intern | 🔗

Crupee Software Pvt. Ltd / Kathmandu, Nepal / Dec, 2022 - Mar, 2023 /

As a React Developer, I completed a three-month internship where I built an admin panel for a restaurant using various npm packages and gained familiarity with cPanel and Node.js. Additionally, my work during the internship was recognized, and I was offered more opportunities and job roles. I have also been actively involved in a Next.js side project, which has allowed me to expand my skills and stay up-to-date with the latest web development technologies.

Projects

Restaurant Management System | 🔗

A React web application that allows restaurant managers to streamline their day-to-day operations, manage table reservations, view orders, track inventory, and view sales reports.

Futsal Booking System | 🔗

A web application based on Django that allows players to book and pay for futsal courts online.

Blood Donation Project | 🔗

A web-based system built for donating blood. It works along with NGOs and helps to spread awareness about blood donation.
