I'm a frontend developer with experience in JavaScript, React, and related libraries. My passion lies in creating engaging, responsive user interfaces that enhance the overall user experience.

Professional Experience

Frontend Development | [🔗](#)

Crupee Software Pvt. Ltd / Kathmandu, Nepal / Dec, 2022 - Mar, 2023 /

As a React developer, I worked full-time after I completed a three-month internship where I built an admin panel and website for [K-POP Restaurant Pvt. Ltd.](#) using various npm packages and gained familiarity with cPanel and Node.js. Additionally, my work during the internship was recognized, and I was offered more opportunities and job roles. I have also been actively involved in a Next.js side project, which has allowed me to expand my skills and stay up-to-date with the latest web development technologies.

Work Experience

Website for K-POP Restaurant Pvt. Ltd. | [🔗](#)

Collaborated with a team to create a customized website that enables customers to easily order and reserve tables. The website is optimized for mobile devices and features a clean and user-friendly interface.

Admin Panel for K-POP Restaurant Pvt. Ltd. | [🔗](#)

Created an admin panel that allows restaurant managers to streamline their day-to-day operations, manage table reservations, view orders, track inventory, and view sales reports.

Personal Projects

MERN Amazon Clone | [🔗](#)

It mimics the functionality of Amazon.com. The front-end is built using React and Redux. The application integrates with Stripe for payment processing.

Twitter Clone | [🔗](#)

This is a Twitter clone app built using the MERN stack and other technologies including Tailwind CSS, TypeScript, React Router DOM, React Icons, JWT verification, and features such as follow, like, and explore.
